

Mouse anti-Human Phosphoserine Monoclonal Antibody

Anti-Phosphoserine Antibody

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA293393	Mouse	Human	Immunohistochemistry, Western Blot

PRODUCT SYNONYMS

Phosphoserine; Monoclonal Antibody; Anti-Phosphoserine Antibody; anti-Phosphoserine antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	Human
Clonality	Monoclonal
Applicable Applications for anti-Phosphoserine antibody	IHC (Immunohistochemistry), WB (Western Blot)
Preparation and Storage	Maintain refrigerated at 2-8 degree C for up to 2 weeks. For long term storage store at -20 degree C in small aliquots to prevent freeze-thaw cycles.

IMAGES

IHC (Immunohistochemistry)

Dilution: WB: (1/1000 - 1/2000), IH (1/50 - 1/200) Immunohistochemical analysis of Phosphotyrosine staining in human lung cancer formalin fixed paraffin embedded tissue section. The section was pre-treated using heat mediated antigen retrieval with sodium citrate buffer (pH 6.0). The section was then incubated with the antibody at room temperature and detected using an HRP conjugated compact polymer system. DAB was used as the chromogen. The section was then counterstained with haematoxylin and mounted with DPX.

WB (Western Blot)

Dilution: WB (1/1000 - 1/2000), IH (1/50 - 1/200) Western blot analysis of Phosphoserine expression in Jurkat (A), mouse brain (B), rat brain (C) whole cell lysates.
