

## Rabbit Cerebellin 2 Polyclonal Antibody | anti-CBLN2 antibody

Cerebellin 2 Polyclonal Antibody

|                               |                       |                                                |                                     |
|-------------------------------|-----------------------|------------------------------------------------|-------------------------------------|
| CATALOG #<br><b>AAA294468</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat, Monkey</b> | APPLICATIONS<br><b>Western Blot</b> |
|-------------------------------|-----------------------|------------------------------------------------|-------------------------------------|

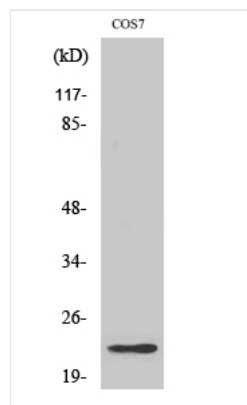

### PRODUCT SYNONYMS

Cerebellin 2; Polyclonal Antibody; Cerebellin 2 Polyclonal Antibody; CBLN2; Cerebellin-2; anti-CBLN2 antibody

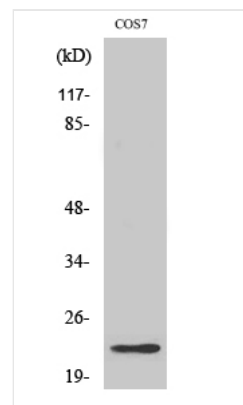

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                                       |
|-------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                                                |
| Reactivity                                      | Human, Mouse, Rat, Monkey                                                                                                                             |
| Clonality                                       | Polyclonal                                                                                                                                            |
| Applicable Applications for anti-CBLN2 antibody | WB (Western Blot)                                                                                                                                     |
| Preparation and Storage                         | Maintain refrigerated at 2-8 degree C for up to 2 weeks. For long term storage store at -20 degree C in small aliquots to prevent freeze-thaw cycles. |

### IMAGES

**WB (Western Blot)**

Dilution: Western Blot: 1/500 - 1/2000. ELISA: 1/40000. Not yet tested in other applications.

**WB (Western Blot)**

Dilution: Western Blot: 1/500 - 1/2000. ELISA: 1/40000. Not yet tested in other applications.

### ADDITIONAL INFORMATION

|                                                     |                                            |
|-----------------------------------------------------|--------------------------------------------|
| Related Product Information for anti-CBLN2 antibody | May play role in synaptogenesis induction. |
