

Mouse anti-Virus Seasonal H1N1 Hemagglutinin Monoclonal Antibody | anti-HA antibody

Seasonal H1N1 Hemagglutinin Monoclonal Antibody

CATALOG # AAA300763	HOST Mouse	REACTIVITY Virus	APPLICATIONS Western Blot, ELISA
-------------------------------	----------------------	----------------------------	--

PRODUCT SYNONYMS

Seasonal H1N1 Hemagglutinin; Monoclonal Antibody; Seasonal H1N1 Hemagglutinin Monoclonal Antibody; Seasonal Influenza A H1N1 Hemagglutinin (7H12F6); Common flu H1; flu H1; HA; anti-HA antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	Virus
Clonality	Monoclonal
Clone Number	7H12F6
Purity/Purification	Immunoaffinity chromatography purified IgG
Form/Format	Supplied in PBS containing 0.02% sodium azide.
Concentration	1mg/ml (varies by lot)
Sequence Length	565
Applicable Applications for anti-HA antibody	WB (Western Blot), ELISA
Immunogen Type	Peptide
Immunogen Description	Raised against a synthetic peptide from the Hemagglutinin protein.
Target Name	Seasonal H1N1 Hemagglutinin
Preparation and Storage	Can be stored at -20 degree C, stable for one year.

IMAGES

Application Data

Seasonal Influenza A Hemagglutinin antibody (2 ug/mL) recognizes seasonal influenza A (H1N1), but not swine-origin influenza A (S-OIV, H1N1), Hemagglutinin protein in ELISA.

Application Data

Recombinant seasonal Influenza HA (lane A) or swine-origin Influenza HA (lane B) were probed (1 ug/mL) using monoclonal seasonal Influenza A HA.

ADDITIONAL INFORMATION

Related Product Information for anti-HA antibody	Influenza A virus has one of sixteen possible Hemagglutinin (HA) surface proteins and one of nine possible Neuraminidase (NA) surface proteins. In early 2009, a novel H1N1 swine-origin influenza (S-OIV) A virus was identified in specimens obtained from patients in Mexico and the United States. The genetic make-up of this swine flu virus is unlike any other: it is an H1N1 strain that combines a triple assortment first identified in 1998 including human, swine, and avian influenza with two new pig H3N2 virus genes from Eurasia, themselves of recent human origin. This antibody is specific for the seasonal H1N1 influenza Hemagglutinin and will not recognize the corresponding Hemagglutinin sequence from the swine-origin H1N1 influenza (A/California/14/2009 (H1N1)).
Product Categories/Family for anti-HA antibody	Total protein Ab

NCBI AND UNIPROT INFORMATION

NCBI GI #	168805691
Molecular Weight	63,198 Da
NCBI Official Full Name	hemagglutinin
UniProt Protein Name	Hemagglutinin
UniProt Gene Name	HA
UniProt Entry Name	B0VX44_9INFA

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
