

## Rabbit anti-Human, Mouse TWEAK Polyclonal Antibody | anti-TWEAK antibody

TWEAK Polyclonal Antibody

| CATALOG # | HOST   | REACTIVITY   | APPLICATIONS                                                  |
|-----------|--------|--------------|---------------------------------------------------------------|
| AAA304256 | Rabbit | Human, Mouse | ELISA, Immunofluorescence, Immunohistochemistry, Western Blot |

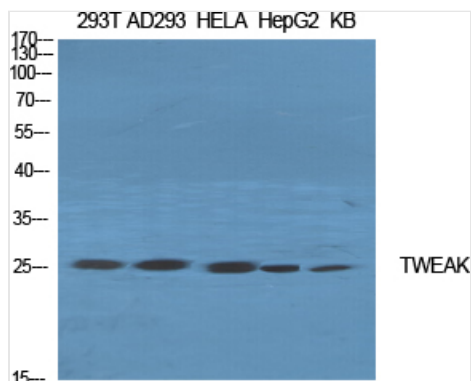

### PRODUCT SYNONYMS

TWEAK; Polyclonal Antibody; TWEAK Polyclonal Antibody; TNFSF12; APO3L; DR3LG; Tumor necrosis factor ligand superfamily member 12; APO3 ligand; TNF-related weak inducer of apoptosis; anti-TWEAK antibody

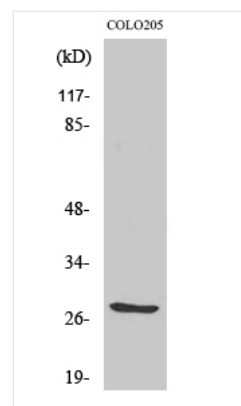

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                       |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                |
| Reactivity                                      | Human, Mouse                                                                                                          |
| Clonality                                       | Polyclonal                                                                                                            |
| Specificity                                     | TWEAK Polyclonal Antibody detects endogenous levels of TWEAK protein.                                                 |
| Purity/Purification                             | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                     | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Concentration                                   | 1 mg/ml (varies by lot)                                                                                               |
| Sequence Length                                 | 249                                                                                                                   |
| Applicable Applications for anti-TWEAK antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                         |
| Immunogen Type                                  | peptide                                                                                                               |
| Immunogen Description                           | Synthesized peptide derived from the Internal region of human TWEAK.                                                  |
| Target Name                                     | TWEAK                                                                                                                 |
| Preparation and Storage                         | Store at -20 degree C/1 year                                                                                          |
