

## Rabbit anti-Human CD137L Polyclonal Antibody | anti-CD137L antibody

CD137L Polyclonal Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                            |
|-----------|--------|------------|-----------------------------------------|
| AAA307280 | Rabbit | Human      | ELISA, Immunofluorescence, Western Blot |

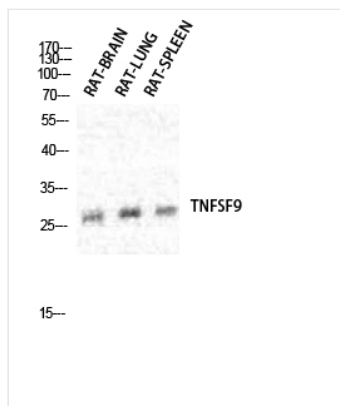

### PRODUCT SYNONYMS

CD137L; Polyclonal Antibody; CD137L Polyclonal Antibody; TNFSF9; Tumor necrosis factor ligand superfamily member 9; 4-1BB ligand; 4-1BBL; anti-CD137L antibody

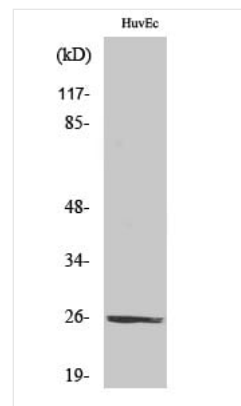

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                       |
|--------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                |
| Reactivity                                       | Human                                                                                                                 |
| Clonality                                        | Polyclonal                                                                                                            |
| Specificity                                      | CD137L Polyclonal Antibody detects endogenous levels of CD137L protein.                                               |
| Purity/Purification                              | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                      | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Concentration                                    | 1 mg/ml (varies by lot)                                                                                               |
| Sequence Length                                  | 254                                                                                                                   |
| Applicable Applications for anti-CD137L antibody | ELISA, IF (Immunofluorescence), WB (Western Blot)                                                                     |
| Immunogen Type                                   | peptide                                                                                                               |
| Immunogen Description                            | Synthesized peptide derived from the Internal region of human CD137L.                                                 |
| Target Name                                      | CD137L                                                                                                                |
| Preparation and Storage                          | Store at -20 degree C/1 year                                                                                          |
