

## Rabbit alpha-Synuclein Polyclonal Antibody | anti-SNCA antibody

alpha-Synuclein (Ab-133) Antibody

|                               |                       |                                        |                                                         |
|-------------------------------|-----------------------|----------------------------------------|---------------------------------------------------------|
| CATALOG #<br><b>AAA307552</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse, Rat</b> | APPLICATIONS<br><b>Immunofluorescence, Western Blot</b> |
|-------------------------------|-----------------------|----------------------------------------|---------------------------------------------------------|

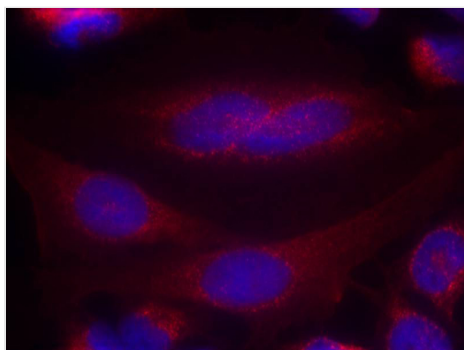

### PRODUCT SYNONYMS

alpha-Synuclein; Polyclonal Antibody; alpha-Synuclein (Ab-133) Antibody; a-Synuclein (Ab-133) Antibody; NACP; SYN; SYUA; alpha-synuclein; anti-SNCA antibody

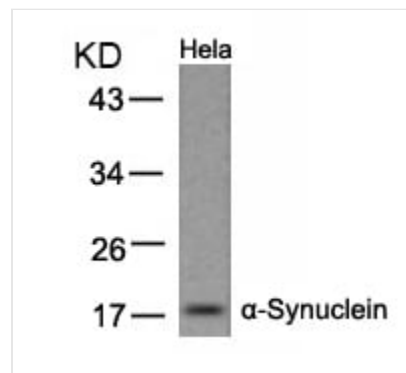

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                               |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                                                        |
| Reactivity                                     | Human, Mouse, Rat                                                                                                                                                             |
| Clonality                                      | Polyclonal                                                                                                                                                                    |
| Specificity                                    | The antibody detects endogenous level of total Synuclein protein.                                                                                                             |
| Purity/Purification                            | Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide. |
| Form/Format                                    | Supplied at 1.0mg/mL in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                           |
| Concentration                                  | 1.0 mg/ml (varies by lot)                                                                                                                                                     |
| Sequence Length                                | 140                                                                                                                                                                           |
| Applicable Applications for anti-SNCA antibody | IF (Immunofluorescence), WB (Western Blot)                                                                                                                                    |
| Immunogen Type                                 | Peptide-KLH                                                                                                                                                                   |
| Immunogen Description                          | Peptide sequence around aa. 131~135 (E-G-Y-Q-D) derived from Human a-Synuclein.                                                                                               |
| Target Name                                    | a-Synuclein                                                                                                                                                                   |
| Preparation and Storage                        | Store at -20 degree C for long term preservation (recommended). Store at 4 degree C for short term use.                                                                       |

### IMAGES

**IF (Immunofluorescence)**

Immunofluorescence staining of methanol-fixed HeLa cells using a-Synuclein(Ab-133) Antibody.

**WB (Western Blot)**

Western blot analysis of extracts from HeLa cells using a-Synuclein(Ab-133) Antibody.

ADDITIONAL INFORMATION

|                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-SNCA antibody | May be involved in the regulation of dopamine release and transport. Soluble protein, normally localized primarily at the presynaptic region of axons, which can form filamentous aggregates that are the major non amyloid component of intracellular inclusions in several neurodegenerative diseases (synucleinopathies). Induces fibrillization of microtubule-associated protein tau. Reduces neuronal responsiveness to various apoptotic stimuli, leading to a decreased caspase-3 activation. |
| Product Categories/Family for anti-SNCA antibody   | Total protein Ab                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
