

## Rabbit anti-Human, Mouse CUL-2 Polyclonal Antibody | anti-CUL-2 antibody

CUL-2 Polyclonal Antibody

|                               |                       |                                   |                                                                                      |
|-------------------------------|-----------------------|-----------------------------------|--------------------------------------------------------------------------------------|
| CATALOG #<br><b>AAA308212</b> | HOST<br><b>Rabbit</b> | REACTIVITY<br><b>Human, Mouse</b> | APPLICATIONS<br><b>ELISA, Immunofluorescence, Immunohistochemistry, Western Blot</b> |
|-------------------------------|-----------------------|-----------------------------------|--------------------------------------------------------------------------------------|

### PRODUCT SYNONYMS

CUL-2; Polyclonal Antibody; CUL-2 Polyclonal Antibody; CUL2; Cullin-2; anti-CUL-2 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                       |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                                |
| Reactivity                                      | Human, Mouse                                                                                                          |
| Clonality                                       | Polyclonal                                                                                                            |
| Specificity                                     | CUL-2 Polyclonal Antibody detects endogenous levels of CUL-2 protein.                                                 |
| Purity/Purification                             | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                     | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Concentration                                   | 1 mg/ml (varies by lot)                                                                                               |
| Sequence Length                                 | 745                                                                                                                   |
| Applicable Applications for anti-CUL-2 antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)                                         |
| Immunogen Type                                  | peptide                                                                                                               |
| Immunogen Description                           | Synthesized peptide derived from the C-terminal region of human CUL-2.                                                |
| Target Name                                     | CUL-2                                                                                                                 |
| Preparation and Storage                         | Store at -20 degree C/1 year                                                                                          |
