### PRODUCT SYNONYMS

HER2; Polyclonal Antibody; HER2 (Ab-877) Antibody; C-erbB-2; ErbB2; anti-HER2 antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                                                                                                                                               |
|------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                                                                        |
| Reactivity                                     | Human, Mouse, Rat                                                                                                                                                             |
| Clonality                                      | Polyclonal                                                                                                                                                                    |
| Specificity                                    | The antibody detects endogenous level of total HER2 protein.                                                                                                                  |
| Purity/Purification                            | Antibodies were produced by immunizing rabbits with synthetic peptide and KLH conjugates. Antibodies were purified by affinity-chromatography using epitope-specific peptide. |
| Form/Format                                    | Supplied at 1.0mg/mL in phosphate buffered saline (without Mg <sup>2+</sup> and Ca <sup>2+</sup> ), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                  |
| Concentration                                  | 1.0 mg/ml (varies by lot)                                                                                                                                                     |
| Sequence Length                                | 1225                                                                                                                                                                          |
| Applicable Applications for anti-HER2 antibody | IHC (Immunohistochemistry), WB (Western Blot)                                                                                                                                 |
| Immunogen Type                                 | Peptide-KLH                                                                                                                                                                   |
| Immunogen Description                          | Peptide sequence around aa.875~879 (T-E-Y-H-A) derived from Human HER2.                                                                                                       |
| Target Name                                    | HER2                                                                                                                                                                          |
| Preparation and Storage                        | Store at -20 degree C for long term preservation (recommended). Store at 4 degree C for short term use.                                                                       |

### IMAGES

#### IHC (Immunohistochemistry)

Immunohistochemical analysis of paraffin-embedded human breast carcinoma tissue using HER2(Ab-877) Antibody (left) or the same antibody preincubated with blocking peptide(right).

#### WB (Western Blot)

Western blot analysis of extracts from SKOV3 cells using HER2(Ab-877) Antibody.

ADDITIONAL INFORMATION

|                                                    |                                                                                                                                                                                                               |
|----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-HER2 antibody | Essential component of a neuregulin-receptor complex, although neuregulins do not interact with it alone. GP30 is a potential ligand for this receptor. Not activated by EGF, TGF- $\alpha$ and amphiregulin. |
| Product Categories/Family for anti-HER2 antibody   | Total protein Ab                                                                                                                                                                                              |
