ADDITIONAL INFORMATION

Related Product Information for anti-RRAGA antibody	Involved in the RCC1/Ran-GTPase pathway.RRAGA may play a direct role in a TNF-alpha signaling pathway leading to induction of cell death. May alternatively act as a cellular target for adenovirus E3-14.7K, an inhibitor of TNF-alpha functions, thereby affecting cell death. Has guanine nucleotide-binding activity but undetectable intrinsic GTPase activity.biquitously expressed with highest levels of expression in skeletal muscle, heart, and brain.
