## PRODUCT SYNONYMS

PHD finger-like domain-containing protein 5A; Polyclonal Antibody; PHD finger-like domain-containing protein 5A Polyclonal Antibody; Splicing factor 3B-associated 14 kDa protein PHF5A; anti-PHF5A antibody

## PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                  |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                           |
| Reactivity                                      | Human                                                                                                            |
| Clonality                                       | Polyclonal                                                                                                       |
| Specificity                                     | The antibody detects endogenous level of total PHD finger-like domain-containing protein 5A polyclonal antibody. |
| Purity/Purification                             | Caprylic Acid Ammonium Sulfate Precipitation purified                                                            |
| Form/Format                                     | Preservative: 0.03% Proclin 300 Constituents: 50% Glycerol, 0.01M PBS, PH 7.4                                    |
| Concentration                                   | 1.0 mg/ml (varies by lot)                                                                                        |
| Sequence Length                                 | 110                                                                                                              |
| Applicable Applications for anti-PHF5A antibody | IHC (Immunohistochemistry)                                                                                       |
| Immunogen                                       | Recombinant Human PHD finger-like domain-containing protein 5A protein                                           |
| Immunogen Type                                  | Protein                                                                                                          |
| Preparation and Storage                         | Store at -20 degree C                                                                                            |

## IMAGES

**IHC (Immunohistochemistry)**

Immunohistochemical analysis of paraffin-embedded human testis using at dilution of 1:100.

**IHC (Immunohistochemistry)**

Immunohistochemical analysis of paraffin-embedded human placenta using at dilution of 1:100.

ADDITIONAL INFORMATION

|                                                     |                                                                                                                                                               |
