

Human Fibroblast growth factor 21 ELISA Kit | FGF21 elisa kit

Human Fibroblast growth factor 21 ELISA Kit

CATALOG #
AAA309953

REACTIVITY
Human

PRODUCT SYNONYMS

Fibroblast growth factor 21; Human Fibroblast growth factor 21 ELISA Kit; FGF-21; FGF21; UNQ3115/PRO10196; FGF21 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	This assay recognizes recombinant and natural human C-terminal propeptide of Collagen alpha-1(II) chain. No significant cross-reactivity or interference was observed.
Samples	Serum, Plasma, Tissue Homogenates And Cell Culture Supernates And Other Biological Fluids
Detection Range	3.12 ng/mL-200 ng/mL
Sensitivity	Typically <0.76 ng/mL
Preparation and Storage	Store at 4 degree C

ADDITIONAL INFORMATION

Related Product Information for FGF21 elisa kit	Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of human C-terminal propeptide of Collagen alpha-1(II) chain concentrations in serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids. Principle of the Assay: The microtiter plate provided in this kit has been pre-coated with an antibody specific to C-terminal propeptide of Collagen alpha-1(II) chain. Standards or samples are then added to the appropriate microtiter plate wells with a biotin-conjugated polyclonal antibody preparation specific for C-terminal propeptide of Collagen alpha-1(II) chain and Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then a TMB substrate solution is added to each well. Only those wells that contain C-terminal propeptide of Collagen alpha-1(II) chain, biotin-conjugated antibody and enzyme-conjugated Avidin will exhibit a change in color. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of C-terminal propeptide of Collagen alpha-1(II) chain in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	9506597
NCBI GeneID	26291
NCBI Accession #	NP_061986.1
NCBI GenBank Nucleotide #	NM_019113.3
UniProt Accession #	Q9NSA1; Q8N683
Molecular Weight	22,300 Da
NCBI Official Full Name	fibroblast growth factor 21
NCBI Official Synonym Full Names	fibroblast growth factor 21
NCBI Official Symbol	FGF21
NCBI Protein Information	fibroblast growth factor 21
UniProt Protein Name	Fibroblast growth factor 21
UniProt Gene Name	FGF21
UniProt Synonym Gene Names	FGF-21

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
