

General Progesterone ELISA Kit | P4 elisa kit

General Progesterone ELISA Kit

CATALOG #
AAA309980

REACTIVITY
General

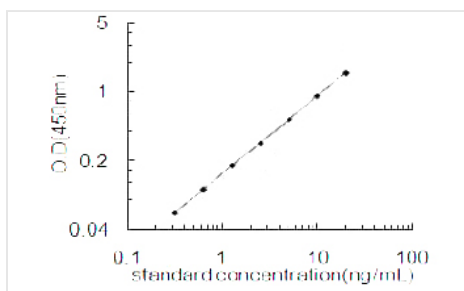

PRODUCT SYNONYMS

Progesterone; General Progesterone ELISA Kit; P4; P4 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Specificity	This assay recognizes recombinant and natural General Lipoxin B4. No significant cross-reactivity or interference was observed.
Samples	Serum, Plasma, Tissue Homogenates, Cell Culture Supernates, And Other Biological Fluids
Assay Type	Quantitative Competitive
Detection Range	1.56-100 ng/mL.
Preparation and Storage	Store at 4 degree C

Related Product Information for P4 elisa kit

Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of general Lipoxin B4 concentrations in serum, plasma, tissue homogenates, cell culture supernates, and other biological fluids.

Principle of the Assay: The ELISA is based on the competitive binding enzyme immunoassay technique. The microtiter plate provided in this kit has been pre-coated with an antibody specific to Lipoxin B4. During the reaction, Lipoxin B4 in the sample or standard competes with a fixed amount of biotin-labeled Lipoxin B4 for sites on a pre-coated Monoclonal antibody specific to Lipoxin B4. Excess conjugate and unbound sample or standard are washed from the plate. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of Lipoxin B4 in the samples is then determined by comparing the O.D. of the samples to the standard curve.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
