

## Rat Low-density lipoprotein ELISA Kit | LDL elisa kit

Rat Low-density lipoprotein ELISA Kit

CATALOG #  
**AAA310078**

REACTIVITY  
**Rat**

### PRODUCT SYNONYMS

Low-density lipoprotein; Rat Low-density lipoprotein ELISA Kit; LDL; LDL elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                          |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                                      |
| Specificity             | This assay recognizes recombinant and natural rat Low-density lipoprotein. No significant cross-reactivity or interference was observed. |
| Samples                 | serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids                                                |
| Detection Range         | 6.25 ng/mL -400 ng/mL                                                                                                                    |
| Preparation and Storage | Store at 4 degree C                                                                                                                      |

### ADDITIONAL INFORMATION

#### Related Product Information for LDL elisa kit

Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of rat low-density lipoprotein, Low-density lipoprotein concentrations in serum, Plasma, tissue homogenates and Cell culture supernates and Other biological fluids.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
