

General Oxytocin ELISA Kit | Oxtc elisa kit

General Oxytocin ELISA Kit

CATALOG #
AAA310233

REACTIVITY
General

PRODUCT SYNONYMS

Oxytocin; General Oxytocin ELISA Kit; Oxtc; Oxtc elisa kit

PRODUCT SPECIFICATIONS

Reactivity	General
Specificity	This assay recognizes recombinant and natural GeneralEstradiol. No significant cross-reactivity or interference was observed.
Samples	Serum, Plasma, Tissue Homogenates, Cell Culture Supernates, And Other Biological Fluids
Assay Type	Quantitative Competitive
Detection Range	3.12-200ng/ml.
Preparation and Storage	Store at 4 degree C

ADDITIONAL INFORMATION

Related Product Information for Oxtc elisa kit

Intended Uses: This immunoassay kit allows for the in vitro quantitative determination of generalEstradiolconcentrations in serum, plasma, tissue homogenates, cell culture supernates, and other biological fluids.

Principle of the Assay: The ELISA is based on the competitive binding enzyme immunoassaytechnique. The microtiter plate provided in this kit has been pre-coated with an antibody specific toEstradiol, During the reaction,Estradiolin the sample or standard competes with a fixed amount of biotin-labeledEstradiol for sites on a pre-coated Monoclonal antibody specific to Estradiol. Excess conjugate and unbound sample or standard are washed from the plate. Next, Avidin conjugated to Horseradish Peroxidase (HRP) is added to each microplate well and incubated. Thena TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of a sulphuric acid solution and the color change is measured spectrophotometrically at a wavelength of 450 nm +/- 2 nm. The concentration of Estradiol in the samples is then determined by comparing the O.D. of the samples to the standard curve.

NCBI AND UNIPROT INFORMATION

NCBI GI #	300675592
Molecular Weight	13,427 Da
NCBI Official Full Name	oxytocin
UniProt Protein Name	Oxytocin
UniProt Gene Name	Oxt

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
