

## Rabbit RPL22/L1 Polyclonal Antibody | anti-RPL22L1 antibody

RPL22/L1 Antibody

| CATALOG # | HOST   | REACTIVITY        | APPLICATIONS                       |
|-----------|--------|-------------------|------------------------------------|
| AAA31142  | Rabbit | Human, Mouse, Rat | Western Blot, Immunohistochemistry |

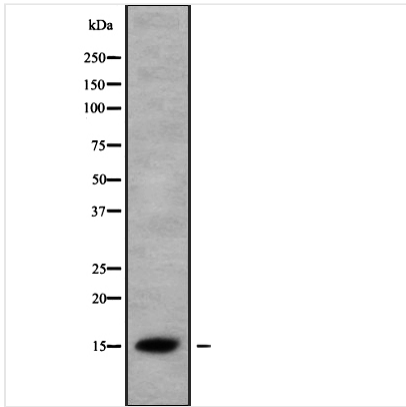

### PRODUCT SYNONYMS

RPL22/L1; Polyclonal Antibody; RPL22/L1 Antibody; 60S ribosomal protein L22-like 1; RL22L\_HUMAN; rpl22l1; 60S ribosomal protein L22; EAP; EBER associated protein; EBER-associated protein; Epstein Barr encoded RNA associated protein; Epstein Barr virus small RNA associated protein; Epstein-Barr virus small RNA-associated protein; HBP15; HBP15 L22; heparin binding protein 15; Heparin binding protein HBp15; Heparin-binding protein HBp15; ribosomal protein L22; RL22\_HUMAN; rpl22; anti-RPL22L1 antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                                                                                                                                                                                          |
|---------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                                                                                                                                                                                   |
| Reactivity                                        | Human, Mouse, Rat                                                                                                                                                                                                                                        |
| Clonality                                         | Polyclonal                                                                                                                                                                                                                                               |
| Isotype                                           | Rabbit IgG                                                                                                                                                                                                                                               |
| Purity/Purification                               | The antiserum was purified by peptide affinity chromatography using SulfoLink™ Coupling Resin (Thermo Fisher Scientific).                                                                                                                                |
| Form/Format                                       | IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                                                                                                              |
| Concentration                                     | ~1mg/ml (varies by lot)                                                                                                                                                                                                                                  |
| Applicable Applications for anti-RPL22L1 antibody | WB (Western Blot), IHC (Immunohistochemistry)                                                                                                                                                                                                            |
| Application Notes                                 | WB: 1:1000-3000<br>IHC: 1:200<br><br>*The optimal dilutions should be determined by the end user.<br>IMPORTANT: For western blots, incubate membrane with diluted antibody in 5% w/v milk , 1X TBS, 0.1% Tween@20 at 4°C with gentle shaking, overnight. |
| Immunogen                                         | A synthesized peptide derived from human RPL22/L1, corresponding to a region within the internal amino acids.                                                                                                                                            |
| Preparation and Storage                           | Store at -20°C. Stable for 12 months from date of receipt.                                                                                                                                                                                               |
