

## Rabbit anti-Human, Mouse YES1 Polyclonal Antibody | anti-YES1 antibody

YES1 Rabbit Polyclonal Antibody

| CATALOG # | HOST   | REACTIVITY   | APPLICATIONS                     |
|-----------|--------|--------------|----------------------------------|
| AAA313190 | Rabbit | Human, Mouse | Immunofluorescence, Western Blot |

### PRODUCT SYNONYMS

YES1; Polyclonal Antibody; YES1 Rabbit Polyclonal Antibody; HsT441; P61-YES; Yes; c-yes; anti-YES1 antibody

### PRODUCT SPECIFICATIONS

|                                                |                                                         |
|------------------------------------------------|---------------------------------------------------------|
| Host                                           | Rabbit                                                  |
| Reactivity                                     | Human, Mouse                                            |
| Clonality                                      | Polyclonal                                              |
| Isotype                                        | IgG                                                     |
| Purity/Purification                            | Affinity purification                                   |
| Form/Format                                    | PBS with 0.02% sodium azide, 50% glycerol, pH7.3.       |
| Applicable Applications for anti-YES1 antibody | IF (Immunofluorescence), WB (Western Blot)              |
| Immunogen                                      | Recombinant fusion protein of human YES1 (NP_005424.1). |
| Preparation and Storage                        | Store at -20 degree C. Avoid freeze/thaw cycles.        |

### IMAGES

**IF (Immunofluorescence)**

Immunofluorescence analysis of U2OS cells using YES1 Rabbit pAb.

**WB (Western Blot)**

Western blot analysis of extracts of various cell lines, using YES1 antibody.

### ADDITIONAL INFORMATION

|                                                    |                                                                                                                                                                                                                                                                                                                         |
|----------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-YES1 antibody | This gene is the cellular homolog of the Yamaguchi sarcoma virus oncogene. The encoded protein has tyrosine kinase activity and belongs to the src family of proteins. This gene lies in close proximity to thymidylate synthase gene on chromosome 18, and a corresponding pseudogene has been found on chromosome 22. |
