

Rabbit BLC Polyclonal Antibody | anti-BLC antibody

BLC Polyclonal Antibody

CATALOG #	HOST	REACTIVITY	APPLICATIONS
AAA314721	Rabbit	Human, Mouse, Rat	ELISA, Immunofluorescence, Immunohistochemistry, Western Blot

PRODUCT SYNONYMS

BLC; Polyclonal Antibody; BLC Polyclonal Antibody; anti-BLC antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human, Mouse, Rat
Clonality	Polyclonal
Specificity	BLC Polyclonal Antibody detects endogenous levels of BLC protein.
Form/Format	Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.
Concentration	1mg/ml (varies by lot)
Applicable Applications for anti-BLC antibody	ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry), WB (Western Blot)
Immunogen	The antiserum was produced against synthesized peptide derived from the Internal region of human CXCL13.
Preparation and Storage	Store at -20 degree C/1 year

IMAGES

IHC (Immunohistochemistry)

Immunohistochemical analysis of paraffin-embedded human-muscle, antibody was diluted at 1:100

WB (Western Blot)

Western Blot analysis of mouse spleen cells using BLC Polyclonal Antibody. Secondary antibody was diluted at 1:20000

ADDITIONAL INFORMATION

Related Product Information for anti-BLC antibody

C-X-C motif chemokine ligand 13(CXCL13) Homo sapiens B lymphocyte chemoattractant, independently cloned and named Angie, is an antimicrobial peptide and CXC chemokine strongly expressed in the follicles of the spleen, lymph nodes, and Peyer's patches. It preferentially promotes the migration of B lymphocytes (compared to T cells and macrophages), apparently by stimulating calcium influx into, and chemotaxis of, cells expressing Burkitt's lymphoma receptor 1 (BLR-1). It may therefore function in the homing of B lymphocytes to follicles.

Product Categories/Family for anti-BLC antibody

Primary Antibody

NCBI AND UNIPROT INFORMATION

Molecular Weight

Calculated MW: 15kDa

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
