

## Rabbit ETV6 Polyclonal Antibody | anti-ETV6 antibody

ETV6 Antibody

| CATALOG # | HOST   | REACTIVITY        | APPLICATIONS                            |
|-----------|--------|-------------------|-----------------------------------------|
| AAA317483 | Rabbit | Human, Mouse, Rat | ELISA, Immunofluorescence, Western Blot |

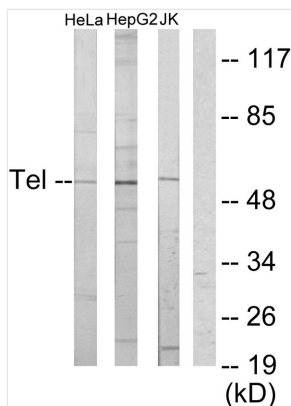

### PRODUCT SYNONYMS

ETV6; Polyclonal Antibody; ETV6 Antibody; ETS translocation variant 6; ets variant gene 6 (TEL oncogene); ETS-related protein Tel1; TEL1; Transcription factor ETV6; anti-ETV6 antibody

### PRODUCT SPECIFICATIONS

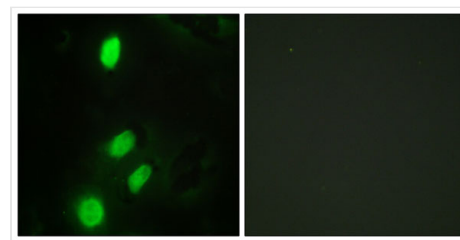

|                                                |                                                                                                                           |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Host                                           | Rabbit                                                                                                                    |
| Reactivity                                     | Human, Mouse, Rat                                                                                                         |
| Clonality                                      | Polyclonal                                                                                                                |
| Specificity                                    | ETV6 Antibody detects endogenous levels of total ETV6 protein.                                                            |
| Purity/Purification                            | Purified from rabbit antiserum by affinity-chromatography using immunogen.                                                |
| Form/Format                                    | Rabbit IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Concentration                                  | 1 mg/ml (varies by lot)                                                                                                   |
| Sequence Length                                | 452                                                                                                                       |
| Applicable Applications for anti-ETV6 antibody | ELISA, IF (Immunofluorescence), WB (Western Blot)                                                                         |
| Target Modification                            | Unmodified/Total                                                                                                          |
| Immunogen                                      | The antiserum was produced against synthesized peptide derived from human ETV6.                                           |
| Immunogen Range                                | 371-420                                                                                                                   |
| Preparation and Storage                        | Stable at -20 degree C for at least 1 year.                                                                               |

### IMAGES

#### WB (Western Blot)

Western blot analysis of lysates from HeLa, HepG2, and Jurkat cells, using ETV6 Antibody. The lane on the right is blocked with the synthesized peptide.

#### IF (Immunofluorescence)

Immunofluorescence analysis of HeLa cells, using ETV6 Antibody. The picture on the right is blocked with the synthesized peptide.
