

## Rabbit Tenascin-R Polyclonal Antibody | anti-TNR antibody

Tenascin-R Rabbit Polyclonal Antibody

| CATALOG # | HOST   | REACTIVITY        | APPLICATIONS                                    |
|-----------|--------|-------------------|-------------------------------------------------|
| AAA318780 | Rabbit | Human, Mouse, Rat | ELISA, Immunofluorescence, Immunohistochemistry |

### PRODUCT SYNONYMS

Tenascin-R; Polyclonal Antibody; Tenascin-R Rabbit Polyclonal Antibody; Tenascin-R (TN-R)(Janusin)(Restrictin); BH6842; anti-TNR antibody

### PRODUCT SPECIFICATIONS

|                                               |                                                                                                                       |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------|
| Host                                          | Rabbit                                                                                                                |
| Reactivity                                    | Human, Mouse, Rat                                                                                                     |
| Clonality                                     | Polyclonal                                                                                                            |
| Specificity                                   | The antibody detects endogenous Tenascin-R                                                                            |
| Purity/Purification                           | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen. |
| Form/Format                                   | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.                                               |
| Concentration                                 | 1mg/ml (varies by lot)                                                                                                |
| Applicable Applications for anti-TNR antibody | ELISA, IF (Immunofluorescence), IHC (Immunohistochemistry)                                                            |
| Immunogen                                     | Synthetic peptide from human protein at AA range: 1270-1350                                                           |
| Modification                                  | Unmodified/Total                                                                                                      |
| Preparation and Storage                       | Store at -20 degree C/1 year                                                                                          |

| Related Product Information for anti-TNR antibody | tenascin R (TNR) Homo sapiens This gene encodes a member of the tenascin family of Extracellular matrix glycoproteins. The encoded protein is restricted to the central nervous system. The protein may play a role in neurite outgrowth, neural cell adhesion and modulation of sodium channel function. It is a constituent of perineuronal nets. [provided by RefSeq, Aug 2013] |
