

## Rabbit anti-Human RNF113B Polyclonal Antibody | anti-RNF113B antibody

RNF113B Antibody

| CATALOG # | HOST   | REACTIVITY | APPLICATIONS                                                 |
|-----------|--------|------------|--------------------------------------------------------------|
| AAA325311 | Rabbit | Human      | ELISA, Immunocytochemistry, Immunofluorescence, Western Blot |

### PRODUCT SYNONYMS

RNF113B; Polyclonal Antibody; RNF113B Antibody; bA10G5.1; MGC26599; R113B\_HUMAN; RING finger protein 113B; RNF161; Zinc finger protein 183 like 1; Zinc finger protein 183-like 1; ZNF183L1; anti-RNF113B antibody

### PRODUCT SPECIFICATIONS

|                                                   |                                                                                               |
|---------------------------------------------------|-----------------------------------------------------------------------------------------------|
| Host                                              | Rabbit                                                                                        |
| Reactivity                                        | Human                                                                                         |
| Clonality                                         | Polyclonal                                                                                    |
| Isotype                                           | IgG                                                                                           |
| Specificity                                       | RNF113B antibody detects endogenous levels of total RNF113B                                   |
| Purity/Purification                               | The antiserum was purified by peptide affinity chromatography using SulfoLink Coupling Resin. |
| Form/Format                                       | Liquid<br>Phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Concentration                                     | 1mg/ml (varies by lot)                                                                        |
| Sequence Length                                   | 322                                                                                           |
| Applicable Applications for anti-RNF113B antibody | ELISA, ICC (Immunocytochemistry), IF (Immunofluorescence), WB (Western Blot)                  |
| Immunogen                                         | A synthesized peptide                                                                         |
| Conjugation                                       | Unconjugated                                                                                  |
| Preparation and Storage                           | Store at -20 degree C. Stable for 12 months from date of receipt.                             |

### IMAGES

#### WB (Western Blot)

Western blot analysis of COLO205/K562/JURKAT/293 cell lysates using RNF113B antibody.

#### IF (Immunofluorescence)

AAA325311 staining HepG2 by IF/ICC. The sample were fixed with PFA and permeabilized in 0.1% Triton X-100, then blocked in 10% serum for 45 minutes at 25 degree C. The primary antibody was diluted at 1/200 and incubated with the sample for 1 hour at 37 degree C. An Alexa Fluor 594 conjugated goat anti-rabbit IgG (H+L) Ab, diluted at 1/600, was used as the secondary antibody.
