### PRODUCT SYNONYMS

SRRM2; Polyclonal Antibody; SRRM2 Antibody; 300 kDa nuclear matrix antigen; CWC21; KIAA0324; Ser/Arg-related nuclear matrix protein of 300 kDa; Serine/arginine repetitive matrix protein 2; Serine/arginine-rich splicing factor-related nuclear matrix protein of 300 kDa; Splicing coactivator subunit SRm300; SR-related nuclear matrix protein of 300 kDa; SRL300; SRM300; SRRM2\_HUMAN; Tax-responsive enhancer element-binding protein 803; TaxREB803; anti-SRRM2 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                           |
|-------------------------------------------------|-----------------------------------------------------------------------------------------------------------|
| Host                                            | Rabbit                                                                                                    |
| Reactivity                                      | Human,Mouse                                                                                               |
| Clonality                                       | Polyclonal                                                                                                |
| Specificity                                     | SRRM2 Antibody detects endogenous levels of total SRRM2.                                                  |
| Purity/Purification                             | Peptide affinity purification                                                                             |
| Form/Format                                     | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mMNaCl, 0.02% sodium azide and 50% glycerol          |
| Concentration                                   | 1mg/ml (varies by lot)                                                                                    |
| Applicable Applications for anti-SRRM2 antibody | ELISA, WB (Western Blot)                                                                                  |
| Immunogen                                       | A synthesized peptide derived from human SRRM2,corresponding to a region within the internal amino acids. |
| Preparation and Storage                         | Store at -20°C. Stable for 12 months from date of receipt.                                                |

### ADDITIONAL INFORMATION

|                                                     |                                                                                                                                                                                                                                                               |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-SRRM2 antibody | Involved in pre-mRNA splicing. May function at or prior to the first catalytic step of splicing at the catalytic center of the spliceosome. May do so by stabilizing the catalytic center or the position of the RNA substrate (By similarity). Binds to RNA. |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
