

# Rabbit anti-Human, Mouse ARHGAP10 Polyclonal Antibody | anti-ARHGAP10 antibody

ARHGAP10 Antibody

| CATALOG # | HOST   | REACTIVITY   | APPLICATIONS                                          |
|-----------|--------|--------------|-------------------------------------------------------|
| AAA328773 | Rabbit | Human, Mouse | Immunocytochemistry, Immunofluorescence, Western Blot |

## PRODUCT SYNONYMS

ARHGAP10; Polyclonal Antibody; ARHGAP10 Antibody; Arhgap21; KIAA1424; RHG21\_HUMAN; Rho GTPase-activating protein 10; Rho GTPase-activating protein 21; Rho-type GTPase-activating protein 21; anti-ARHGAP10 antibody

## PRODUCT SPECIFICATIONS

|                                                    |                                                                                                                          |
|----------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Host                                               | Rabbit                                                                                                                   |
| Reactivity                                         | Human, Mouse                                                                                                             |
| Clonality                                          | Polyclonal                                                                                                               |
| Isotype                                            | IgG                                                                                                                      |
| Purity/Purification                                | The antiserum was purified by peptide affinity chromatography using SulfoLink Coupling Resin (Thermo Fisher Scientific). |
| Form/Format                                        | Liquid; Phosphate buffered saline, pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                              |
| Concentration                                      | ~1mg/ml (varies by lot)                                                                                                  |
| Sequence Length                                    | 1958                                                                                                                     |
| Applicable Applications for anti-ARHGAP10 antibody | ICC (Immunocytochemistry), IF (Immunofluorescence), WB (Western Blot)                                                    |
| Immunogen                                          | A synthesized peptide derived from human ARHGAP10, corresponding to a region within the internal amino acids.            |
| Preparation and Storage                            | Store at -20°C. Stable for 12 months from date of receipt.                                                               |

## IMAGES

### WB (Western Blot)

Western blot analysis of extracts from Myeloma cells, using ARHGAP10 Antibody. The lane on the left was treated with blocking peptide.

## NCBI AND UNIPROT INFORMATION
