### PRODUCT SYNONYMS

SNAP23; Polyclonal Antibody; Phospho-SNAP23 (Ser95) Antibody; HsT17016; LS-B8340; SNAP 23; SNAP-23; SNAP23A; SNAP23B; SNP23\_HUMAN; Synaptosomal associated protein 23; Synaptosomal associated protein 23kDa; Synaptosomal associated protein; Synaptosomal-associated protein 23; Vesicle membrane fusion protein SNAP 23; Vesicle membrane fusion protein SNAP23; Vesicle-membrane fusion protein SNAP-23; anti-SNAP23 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                                                                |
|--------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Rabbit                                                                                                                                                         |
| Reactivity                                       | Human, Mouse, Rat                                                                                                                                              |
| Clonality                                        | Polyclonal                                                                                                                                                     |
| Isotype                                          | IgG                                                                                                                                                            |
| Purity/Purification                              | The antibody is from purified rabbit serum by affinity purification via sequential chromatography on phospho-peptide and non-phospho-peptide affinity columns. |
| Form/Format                                      | Liquid; phosphate buffered saline, pH7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                                     |
| Concentration                                    | ~1mg/ml (varies by lot)                                                                                                                                        |
| Applicable Applications for anti-SNAP23 antibody | ELISA (Peptide ELISA)                                                                                                                                          |
| Immunogen                                        | A synthesized peptide derived from human SNAP23 around the phosphorylation site of Ser95.                                                                      |
| Preparation and Storage                          | Store at -20 degree C. Stable for 12 months from date of receipt.                                                                                              |

### ADDITIONAL INFORMATION

|                                                      |                                                                                                                                                                 |
|------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Related Product Information for anti-SNAP23 antibody | Essential component of the high affinity receptor for the general membrane fusion machinery and an important regulator of transport vesicle docking and fusion. |
