| Host                                           | Rabbit                                                                                                                                                  |
| Reactivity                                     | Human, Mouse                                                                                                                                            |
| Clonality                                      | Polyclonal                                                                                                                                              |
| Isotype                                        | IgG                                                                                                                                                     |
| Purity/Purification                            | The Ab is from purified rabbit serum by affinity purification via sequential chromatography on phospho-peptide and non-phospho-peptide affinity columns |
| Form/Format                                    | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol.                                                      |
| Concentration                                  | 1 mg/ml (varies by lot)                                                                                                                                 |
| Applicable Applications for anti-SRC3 antibody | WB (Western Blot)                                                                                                                                       |
| Immunogen                                      | A synthesized peptide derived from human SRC3 around the phosphorylation site of Ser857                                                                 |
| Preparation and Storage                        | Store at -20 degree C. Stable for 12 months from date of receipt.                                                                                       |

### IMAGES

#### WB (Western Blot)

Western blot analysis NCoA3 (Phospho-Ser857) using EGF treated NIH-3T3 whole cell lysates. -/+ means absence or presence of N peptide (non-phospho peptide) and P peptide (phospho peptide).
