

Human Transmembrane 4 L6 Family Member 19 (TM4SF19) ELISA Kit | TM4SF19 elisa kit

Human Transmembrane 4 L6 Family Member 19 (TM4SF19) ELISA Kit

CATALOG # AAA330526	REACTIVITY Human
-------------------------------	----------------------------

PRODUCT SYNONYMS

Transmembrane 4 L6 Family Member 19 (TM4SF19); Human Transmembrane 4 L6 Family Member 19 (TM4SF19) ELISA Kit; TM4SF19; OCTM4; OTTHUMP00000208460; tetraspan membrane protein OCTM4; TM4SF19 elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Specificity	Human Transmembrane 4 L6 family member 19 (TM4SF19) ELISA Kit has high sensitivity and excellent specificity for detection of Human TM4SF19. No significant cross-reactivity or interference between Human TM4SF19 and analogues was observed.
Sequence Length	183
Assay Type	Sandwich ELISA (Quantitative)
Samples	Cell Culture Supernatants, Serum, Plasma, Other Biological Fluids
Detection Method	Colorimetric
Usage Notes	<ul style="list-style-type: none"> * Do not mix components from different kit lots or use reagents beyond the kit expiration date. * Allow all reagents to warm to room temperature for at least 30 minutes before opening. * Pre-rinse the pipet tip with reagent, use fresh pipet tips for each sample, standard and reagent to avoid contamination. * Unused wells must be kept desiccated at 4 degree C in the sealed bag provided. * Mix Thoroughly is very important for the result. It is recommended using low frequency oscillator or slight hand shaking every 10 minutes. * It is recommended that all samples and standards be assayed in duplicate or triplicate.
Preparation and Storage	Store at 2-8 degree C.

ADDITIONAL INFORMATION

Related Product Information for TM4SF19 elisa kit	<p>Description: This Human Transmembrane 4 L6 family member 19 (TM4SF19) ELISA Kit employs a two-site sandwich ELISA to quantitate TM4SF19 in samples. An antibody specific for TM4SF19 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any TM4SF19 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for TM4SF19 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of TM4SF19 bound in the initial step. The color development is stopped and the intensity of the color is measured.</p> <p>Background: TM4SF19 Belongs to the L6 tetraspanin family.Members of the L6 family of membrane proteins, a branch of the tetraspanin superfamily, are overexpressed in tumor cells from many types of cancers. However, direct evidence of their oncogenic activity has not been previously shown. this gene is expressed at low level, only 16.6% of the average gene in this release.The gene contains 4 different gt-ag introns. Transcription produces one mRNA. There are 3 validated alternative polyadenylation sites. The spliced mRNA putatively encodes a good protein, containing L6 membrane domain, some transmembrane domains, apparently vertebrate specific Proteins are expected to localize in various compartments.</p>

NCBI AND UNIPROT INFORMATION

NCBI GI #	325974477
NCBI GeneID	116211
NCBI Accession #	NP_001191827.1
NCBI GenBank Nucleotide #	NP_001191827.1
UniProt Accession #	Q96DZ7
NCBI Official Full Name	transmembrane 4 L6 family member 19 isoform 3
NCBI Official Synonym Full Names	transmembrane 4 L six family member 19
NCBI Official Symbol	TM4SF19
NCBI Official Synonym Symbols	OCTM4
NCBI Protein Information	transmembrane 4 L6 family member 19
UniProt Protein Name	Transmembrane 4 L6 family member 19
UniProt Gene Name	TM4SF19
UniProt Synonym Gene Names	OCTM4
UniProt Entry Name	T4S19_HUMAN

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
