

Non-protein Sulfhydryl Assay Kit

Micro Non-protein Sulfhydryl Content Assay Kit

CATALOG #
AAA332641

PRODUCT SYNONYMS

Non-protein Sulfhydryl; Micro Non-protein Sulfhydryl Content Assay Kit; Non-protein Sulfhydryl assay kit

PRODUCT SPECIFICATIONS

Kit Components	Extraction Buffer
	Reagent I
	Reagent II
	Standard
Features & Benefits	Provides a simple, sensitive, rapid Non-protein Sulfhydryl detection method in Animal and Plant Tissues, Plasma, Serum or other Liquid samples.
	Detailed sample preparation and result calculation methods are provided.
Preparation and Storage	Please store the whole kit at 4 degree C upon receipt, and protect from light. The kit is valid for 6 months. Please refer to the table below Materials supplied and Storage conditions to store all the components. It is recommended to use fresh samples, which can be stored at -80 degree C for several weeks if the experiment is not carried out immediately. When measuring, the temperature and time of thawing should be controlled. When thawing at room temperature, the sample should be thawed within 4 h.

ADDITIONAL INFORMATION

Related Product Information for Non-protein Sulfhydryl assay kit	The sulfhydryl group in organism mainly includes non-protein sulfhydryl group and protein sulfhydryl group. Sulfhydryl compounds have important detoxification function in vivo. It has very important physiological significance to the self-regulation of organism.
Product Categories/Family for Non-protein Sulfhydryl assay kit	Cell analysis; Cell metabolism detection kit; Cytology; Cell Research Tools; Cell Metabolism

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
