

Rubella Virus Capsid C Recombinant Protein

Recombinant Rubella Virus Capsid C

CATALOG #
AAA38526

PRODUCT SYNONYMS

Rubella Virus Capsid C; Recombinant Rubella Virus Capsid C; Rubella Capsid; Rubella Virus Capsid C Recombinant; Rubella Virus Capsid C recombinant protein

PRODUCT SPECIFICATIONS

Specificity	Immunoreactive with sera of Rubella Virus infected individuals.
Purity/Purification	Rubella protein is >95% pure as determined by 10% PAGE (coomassie staining). Rubella protein was purified by proprietary chromatographic technique.
Form/Format	20mM imidazol, 8M urea and 0.3M NaCl.
Preparation and Storage	Rubella Capsid protein although stable at 4 degree C for 1 week, should be stored below -18 degree C. Please prevent freeze thaw cycles.

ADDITIONAL INFORMATION

Related Product Information for Rubella Virus Capsid C recombinant protein	Description: The E Coli derived recombinant protein contains the Rubella Virus Capsid C regions, 1-123 amino acids and fused to a GST-Tag at C-terminus. Introduction: Rubella virus is an enveloped positive-strand RNA virus of the family TOGAVIRIDAE: Virions are composed of three structural proteins: a capsid and two membrane-spanning glycoproteins, E2 and E1. During virus assembly, the capsid interacts with genomic RNA to form nucleocapsids.
Product Categories/Family for Rubella Virus Capsid C recombinant protein	Viral Antigens; RUBELLA VIRUS; Viral Antigens; Rubella

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
