

## Human alpha Lactalbumin, alpha-La ELISA Kit | alpha-La elisa kit

Human alpha Lactalbumin, alpha-La ELISA Kit

CATALOG #  
**AAA41162**

REACTIVITY  
**Human**

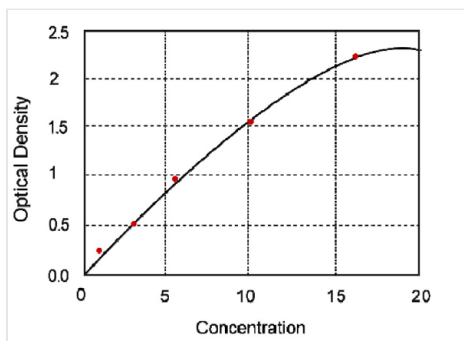

### PRODUCT SYNONYMS

alpha Lactalbumin; alpha-La; Human alpha Lactalbumin; alpha-La ELISA Kit; alpha-La elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Human                                                                                                                                                                                            |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Samples                 | Serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids                                                                                                   |
| Detection Range         | 0.5-200ng/ml                                                                                                                                                                                     |
| Sensitivity             | 0.26ng/ml                                                                                                                                                                                        |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for alpha-La elisa kit

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Human alpha-La antibody. alpha-La present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Human alpha-La Antibody is added and binds to alpha-La in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated alpha-La antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Human alpha-La. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Human alpha Lactalbumin (also known as alpha-La) in serum, plasma, cell culture supernates, Ascites, tissue homogenates or other biological fluids.

NCBI AND UNIPROT INFORMATION
