

## Mouse cathepsin D, cath-D ELISA Kit | cath-D elisa kit

Mouse cathepsin D, cath-D ELISA Kit

CATALOG #  
**AAA42359**

REACTIVITY  
**Mouse**

### PRODUCT SYNONYMS

cathepsin D; cath-D; Mouse cathepsin D; cath-D ELISA Kit; cath-D elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                                  |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Mouse                                                                                                                                                                                            |
| Sequence Length         | 412                                                                                                                                                                                              |
| Samples                 | Serum, Plasma, Cell Culture Supernates, Cell Lysates, Tissue Homogenates                                                                                                                         |
| Assay Type              | Quantitative Sandwich                                                                                                                                                                            |
| Detection Range         | 0.05ng/ml-15ng/ml                                                                                                                                                                                |
| Sensitivity             | 0.019ng/ml                                                                                                                                                                                       |
| Intra-assay Precision   | Intra-Assay Precision (Precision within an assay) Three samples of known concentration were tested on one plate to assess intra-assay precision. Intra-Assay: CV<8%                              |
| Inter-assay Precision   | Inter-Assay Precision (Precision between assays) Three samples of known concentration were tested in separate assays to assess inter-assay precision. CV(%) = SD/mean x 100. Inter-Assay: CV<10% |
| Preparation and Storage | Store at 2 to 8 degree C for 6 months.                                                                                                                                                           |

### ADDITIONAL INFORMATION

#### Related Product Information for cath-D elisa kit

**Intended Uses:** This sandwich kit is for the accurate quantitative detection of Mouse Caspase 11 (also known as CASP11) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

**Principle of the Assay:** This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with Mouse CASP11 antibody. CASP11 present in the sample is added and binds to antibodies coated on the wells. And then biotinylated Mouse CASP11 Antibody is added and binds to CASP11 in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated CASP11 antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of Mouse CASP11. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
