

Human Mullerian Inhibiting Substance/Anti-Mullerian hormone, MIS/AMH ELISA Kit | MIS/AMH elisa kit

Human Mullerian Inhibiting Substance/Anti-Mullerian hormone, MIS/AMH ELISA Kit

CATALOG #

AAA42565

REACTIVITY

Human

PRODUCT SYNONYMS

Mullerian Inhibiting Substance/Anti-Mullerian hormone; MIS/AMH; Human Mullerian Inhibiting Substance/Anti-Mullerian hormone; MIS/AMH ELISA Kit; MIS/AMH elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	0.05ng/ml - 15ng/ml
Sensitivity	0.021ng/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for MIS/AMH elisa kit	Intended Uses: This sandwich kit is for the accurate quantitative detection of human Mullerian Inhibiting Substance/Anti-Mullerian Hormone (also known as MIS/AMH) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates. Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with human MIS/AMH antibody. MIS/AMH present in the sample is added and binds to antibodies coated on the wells. And then biotinylated human MIS/AMH Antibody is added and binds to MIS/AMH in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated MIS/AMH antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of human MIS/AMH. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.
--	---

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
