

Human Tumour necrosis factor related weak inducer of apoptosis, TWEAK ELISA Kit | TWEAK elisa kit

Human Tumour necrosis factor related weak inducer of apoptosis, TWEAK ELISA Kit

CATALOG #

AAA42974

REACTIVITY

Human

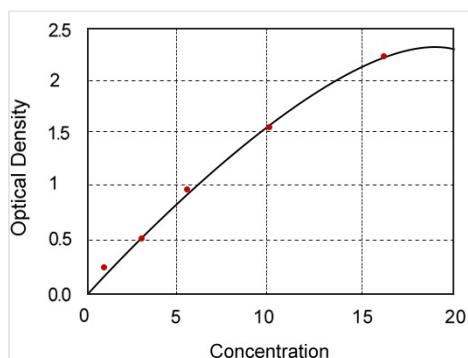

PRODUCT SYNONYMS

Tumour necrosis factor related weak inducer of apoptosis; TWEAK; Human Tumour necrosis factor related weak inducer of apoptosis; TWEAK ELISA Kit; TWEAK elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	10mg/L - 4000mg/L
Sensitivity	5.51mg/L
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for TWEAK elisa kit	Intended Uses: This sandwich kit is for the accurate quantitative detection of human Tumour Necrosis Factor Related Weak Inducer of Apoptosis (also known as TWEAK) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates. Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with human TWEAK antibody. TWEAK present in the sample is added and binds to antibodies coated on the wells. And then biotinylated human TWEAK Antibody is added and binds to TWEAK in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated TWEAK antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of human TWEAK. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.
