

Human cathepsin antibody, cath-Ab ELISA Kit | cath-Ab elisa kit

Human cathepsin antibody, cath-Ab ELISA Kit

CATALOG #
AAA43121

REACTIVITY
Human

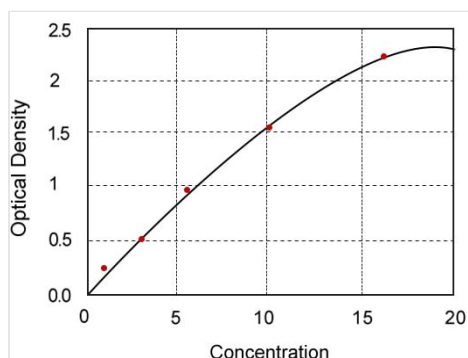

PRODUCT SYNONYMS

cathepsin antibody; cath-Ab; Human cathepsin antibody; cath-Ab ELISA Kit; cath-Ab elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	2ng/ml - 600ng/ml
Sensitivity	1.09ng/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for cath-Ab elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of human Cathepsin Antibody (also known as cath-Ab) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with human cath-Ab antibody. cath-Ab present in the sample is added and binds to antibodies coated on the wells. And then biotinylated human cath-Ab Antibody is added and binds to cath-Ab in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated cath-Ab antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of human cath-Ab. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
