

Human Mac-2-binding Protein ELISA Kit

Human Mac-2-binding Protein ELISA Kit

CATALOG #
AAA44373

REACTIVITY
Human

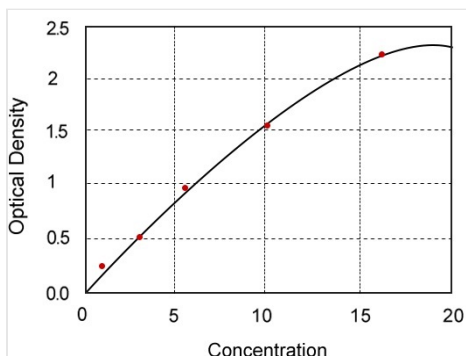

PRODUCT SYNONYMS

Mac-2-binding Protein; Human Mac-2-binding Protein ELISA Kit; Mac-2-binding Protein elisa kit

PRODUCT SPECIFICATIONS

Reactivity	Human
Samples	Serum, plasma, cell culture supernates, cell lysates, tissue homogenates
Assay Type	Quantitative Sandwich
Detection Range	0.2ng/ml - 60ng/ml
Sensitivity	0.092ng/ml
Intra-Assay	CV<8%
Inter-Assay	CV<10%
Preparation and Storage	Store at 2 to 8 degree C for 6 months.

ADDITIONAL INFORMATION

Related Product Information for Mac-2-binding Protein elisa kit

Intended Uses: This sandwich kit is for the accurate quantitative detection of human Mac-2-binding Protein (also known as Mac-2BP) in serum, plasma, cell culture supernates, cell lysates, tissue homogenates.

Principles of the Assay: This kit is an Enzyme-Linked Immunosorbent Assay (ELISA). The plate has been pre-coated with human Mac-2BP antibody. Mac-2BP present in the sample is added and binds to antibodies coated on the wells. And then biotinylated human Mac-2BP Antibody is added and binds to Mac-2BP in the sample. Then Streptavidin-HRP is added and binds to the Biotinylated Mac-2BP antibody. After incubation unbound Streptavidin-HRP is washed away during a washing step. Substrate solution is then added and color develops in proportion to the amount of human Mac-2BP. The reaction is terminated by addition of acidic stop solution and absorbance is measured at 450 nm.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
