ADDITIONAL INFORMATION

Related Product Information for PGC active protein	AAA Biotech is the leading producer and supplier of Human Pepsinogen II/C antigen as a stomach gastric cancer marker for medical research, clinical and manufacturing. Custom preparations, technical support, bulk quantities and aliquoting available. Human Pepsinogens are aspartic proteases produced in the gastric mucosa and secreted into the gastric lumen that play a major role in the digestion of proteins after activation of acidic pH. Pepsinogen is synthesized as isomogens and are classified into two groups, I and II.
