

## HRP Conjugated Goat Anti-human IgM Secondary Antibody

HRP Conjugated Goat Anti-human IgM (u-chain specific) secondary antibody

|                              |                     |                                            |
|------------------------------|---------------------|--------------------------------------------|
| CATALOG #<br><b>AAA45613</b> | HOST<br><b>Goat</b> | APPLICATIONS<br><b>ELISA, Western Blot</b> |
|------------------------------|---------------------|--------------------------------------------|

### PRODUCT SYNONYMS

HRP Conjugated Goat Anti-human IgM; HRP Conjugated Goat Anti-human IgM (u-chain specific) secondary antibody; HRP Conjugated Goat Anti-human IgM secondary antibody

### PRODUCT SPECIFICATIONS

|                                                                                   |                                                                                                         |
|-----------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------|
| Host                                                                              | Goat                                                                                                    |
| Isotype                                                                           | IgM                                                                                                     |
| Specificity                                                                       | This HRP conjugate antibody is specific for human IgM and shows no cross-reactivity with human IgA/IgG. |
| Purity/Purification                                                               | The antibody was purified from antiserum by immunoaffinity chromatography.                              |
| Form/Format                                                                       | Concentrated, Liquid; 0.5mg of HRP conjugated specific antibody, 0.01M PBS (pH7.4), 50% glycerol.       |
| Concentration                                                                     | 1mg/ml (varies by lot)                                                                                  |
| Applicable Applications for HRP Conjugated Goat Anti-human IgM secondary antibody | ELISA, WB (Western Blot)                                                                                |
| Immunogen                                                                         | Human IgM (whole molecular)                                                                             |
| Conjugation                                                                       | Peroxidase                                                                                              |
| Preparation and Storage                                                           | Store at 4°C.                                                                                           |

### ADDITIONAL INFORMATION

|                                                                                       |                                                                                                                                                                                              |
