

anti-Mouse, Rat Ceruloplasmin Polyclonal Antibody | anti-Cp antibody

Anti-Ceruloplasmin Antibody

CATALOG # AAA46298	REACTIVITY Mouse, Rat	APPLICATIONS Immunohistochemistry, Western Blot
------------------------------	---------------------------------	---

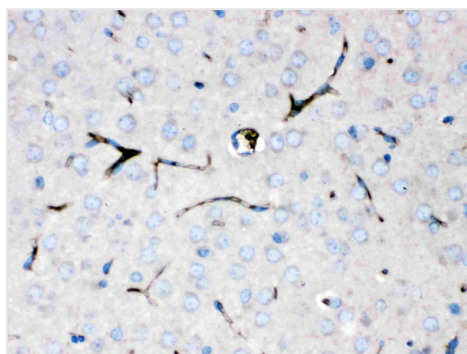

PRODUCT SYNONYMS

Ceruloplasmin; Polyclonal Antibody; Anti-Ceruloplasmin Antibody; CERU_HUMAN; CP 2; CP; CP2; Ferroxidase; ceruloplasmin (ferroxidase); anti-Cp antibody

PRODUCT SPECIFICATIONS

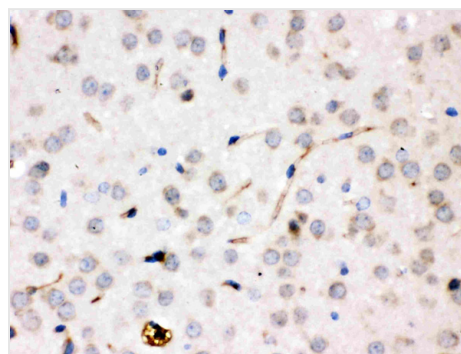

Reactivity	Mouse, Rat
Clonality	Polyclonal
Purity/Purification	Immunogen Affinity Purified
Form/Format	Lyophilized. Each vial contains 5mg BSA, 0.9mg NaCl, 0.2mg Na ₂ HPO ₄ , 0.05mg NaN ₃ .
Sequence Length	1085
Applicable Applications for anti-Cp antibody	IHC (Immunohistochemistry), WB (Western Blot)
Immunogen	E Coli-derived mouse Ceruloplasmin recombinant protein (Position: R20-M258). Mouse Ceruloplasmin shares 80.8% and 91.2% amino acid (aa) sequence identity with human and rat Ceruloplasmin, respectively.
Ig Type	Rabbit IgG
Reconstitution	Add 0.2ml of distilled water will yield a concentration of 500ug/ml.
Preparation and Storage	At -20 degree C for one year. After reconstitution, at 4 degree C for one month. It can also be aliquoted and stored frozen at -20 degree C for a longer time. Avoid repeated freezing and thawing.

IMAGES

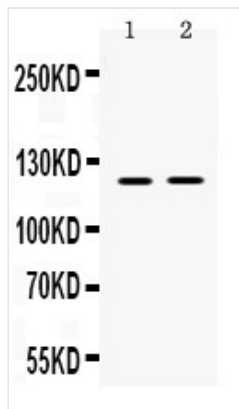

IHC (Immunohistochemistry)

Ceruloplasmin was detected in paraffin-embedded sections of mouse brain tissues using rabbit anti- Ceruloplasmin Antigen Affinity purified polyclonal antibody at 1 ug/mL. The immunohistochemical section was developed using SABC method.

IHC (Immunohistochemistry)

Ceruloplasmin was detected in paraffin-embedded sections of rat brain tissues using rabbit anti- Ceruloplasmin Antigen Affinity purified polyclonal antibody at 1ug/mL. The immunohistochemical section was developed using SABC method.

WB (Western Blot)

Western blot analysis of Ceruloplasmin expression in rat skeletal muscle extract (lane 1), and NIH3T3 whole cell lysates (lane 2). Ceruloplasmin at 122KD was detected using rabbit anti-Ceruloplasmin Antigen Affinity purified polyclonal antibody at 0.5ug/mL. The blot was developed using chemiluminescence (ECL) method.

ADDITIONAL INFORMATION

Related Product Information for anti-Cp antibody	Description: Rabbit IgG polyclonal antibody for Ceruloplasmin(CP) detection. Tested with WB, IHC-P in Mouse;Rat. Background: Ceruloplasmin (or caeruloplasmin) is a ferroxidase enzyme that in humans is encoded by the CP gene. It is mapped to 3q23-q25. The protein encoded by this gene is a metalloprotein that binds most of the copper in plasma and is involved in the peroxidation of Fe(II)transferrin to Fe(III) transferrin. Mutations in this gene cause aceruloplasminemia, which results in iron accumulation and tissue damage, and is associated with diabetes and neurologic abnormalities. Two transcript variants, one protein-coding and the other not protein-coding, have been found for this gene.
