

## Humanized anti-Human CCR8 Monoclonal Antibody | anti-CCR8 antibody

Anti-CCR8(BMS 986340) mAb

| CATALOG # | HOST      | REACTIVITY | APPLICATIONS                            |
|-----------|-----------|------------|-----------------------------------------|
| AAA47587  | Humanized | Human      | Flow Cytometry, Functional Assay, ELISA |

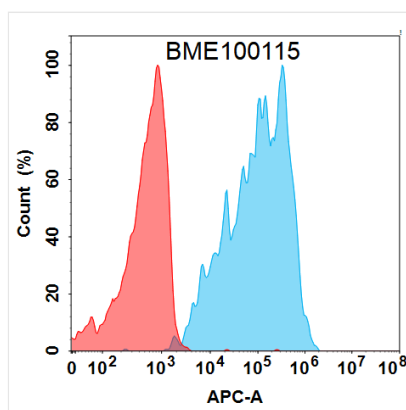

### PRODUCT SYNONYMS

CCR8; Monoclonal Antibody; Anti-CCR8(BMS 986340) mAb; CC-CCR-8; CCR-8; CDw198; CKRL1; CMKBR8; CMKBRL2; CY6; GPRCY6; TER1; anti-CCR8 antibody

### PRODUCT SPECIFICATIONS

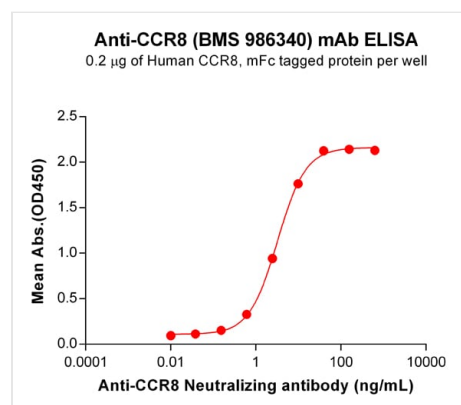

|                                                |                                                                                                                                                                                                                                                                          |

| Host                                           | Humanized                                                                                                                                                                                                                                                                |
| Reactivity                                     | Human                                                                                                                                                                                                                                                                    |
| Clonality                                      | Monoclonal                                                                                                                                                                                                                                                               |
| Isotype                                        | IgG1                                                                                                                                                                                                                                                                     |
| Purity/Purification                            | Purified from cell culture supernatant by affinity chromatography                                                                                                                                                                                                        |
| Form/Format                                    | Powder. Lyophilized from sterile PBS, pH7.4. Normally 5%-8% trehalose is added as protectants before lyophilization. Please see Certificate of Analysis for specific instructions.                                                                                       |
| Applicable Applications for anti-CCR8 antibody | FCM/FACS (Flow Cytometry), ELISA                                                                                                                                                                                                                                         |
| Preparation and Storage                        | Store at -20 degree C to -80 degree C for 12 months in lyophilized form. After reconstitution, if not intended for use within a month, aliquot and store at -80 degree C (Avoid repeated freezing and thawing). Lyophilized proteins are shipped at ambient temperature. |

### IMAGES

FCM/FACS (Flow Cytometry)

Figure 1. ELISA plate pre-coated by 2 ug/mL (100 uL/well) Human CCR8 Protein, mFc Tag (PME101103) can bind Anti-CCR8 Neutralizing antibody (AAA47587) in a linear range of 0.15–39.06 ng/mL.

ELISA

Figure 1. ELISA plate pre-coated by 2 ug/mL (100 uL/well) Human CCR8 Protein, mFc Tag (PME101103) can bind Anti-CCR8 Neutralizing antibody (AAA47587) in a linear range of 0.15–39.06 ng/mL.

### ADDITIONAL INFORMATION
