Mouse Human E-cadherin Monoclonal Antibody

Human E-Cadherin Monoclonal Antibody

CATALOG #	HOST	APPLICATIONS
AAA47687	**Mouse**	**Immunohistochemistry, Immunofluorescence, Flow Cytometry, Functional Assay, Western Blot, ELISA**

PRODUCT SYNONYMS

Human E-cadherin; Monoclonal Antibody; Human E-Cadherin Monoclonal Antibody; E-cadherin; anti-Human E-cadherin antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG2a
Clone Number	SHE78-7
Specificity	Human E-cadherin [Mouse monoclonal antibody to human E-cadherin] This antibody specifically reacts with human E-Cadherin, but does not react with rat E-Cadherin. This antibody inhibits E-Cadherin dependent cell-cell contact.
Form/Format	100 ug IgG in 10 mM PBS, pH 7.4, lyophilized.
Applicable Applications for anti-Human E-cadherin antibody	IHC (Immunohistochemistry), IF (Immunofluorescence), FCM/FACS (Flow Cytometry), WB (Western Blot), ELISA
Antigen	Human placenta E-Cadherin
Stabilizer	1% BSA
Preservatives	None
Dilutions Instructions	Reconstitute in distilled water to the final desired concentration.
Preparation and Storage	Lyophilized antibody is stable at 4 degree C for 2 years. Store the reconstituted solution in aliquots at -20 degree C for one year or at 4 degree C for 6 months after addition of 0.1% sodium azide by the user. Avoid repeated freeze-thaw cycles.

ADDITIONAL INFORMATION

Product Categories/Family for anti-Human E-cadherin antibody	Cell Adhesion Molecule Antibodies

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
