

Mouse MHC CLASS I MONOMORPHIC Monoclonal Antibody

MOUSE ANTI HORSE MHC CLASS I MONOMORPHIC:RPE

CATALOG # AAA50125	HOST Mouse	APPLICATIONS Flow Cytometry, Functional Assay
------------------------------	----------------------	---

PRODUCT SYNONYMS

MHC CLASS I MONOMORPHIC; Monoclonal Antibody; MOUSE ANTI HORSE MHC CLASS I MONOMORPHIC:RPE; anti-MHC CLASS I MONOMORPHIC antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Clonality	Monoclonal
Isotype	IgG2a
Clone Number	CVS22
Form/Format	Purified IgG conjugated to R. Phycoerythrin (RPE) - lyophilised
Applicable Applications for anti-MHC CLASS I MONOMORPHIC antibody	FCM/FACS (Flow Cytometry)
Reconstitution	Reconstitute with 1.0 ml distilled water Perservative Stabilisers
Immunogen	Equine leucocytes Fusion Partners
Target Species	Horse
Preparation and Storage	Prior to reconstitution store at 4 degree C. After reconstitution store at 4 degree C. DO NOT FREEZE. This product should be stored undiluted. This product is photosensitive and should be protected from light. Shelf Life: 12 months from date of reconstitution.

IMAGES

Application Data

Staining of equine peripheral blood lymphocytes with Mouse anti Equine MHC Class 1:RPE (AAA50125)

Application Data

Staining of equine peripheral blood lymphocytes with Mouse anti Equine MHC Class 1:FITC

Application Data

Staining of equine peripheral blood lymphocytes with Mouse anti Equine MHC Class I , followed by Goat anti Mouse IgG:FITC

ADDITIONAL INFORMATION

Related Product Information for anti-MHC CLASS I MONOMORPHIC antibody

Mouse anti Horse MHC Class I Monomorphic antibody, clone CVS22 recognizes monomorphic equine MHC Class I and was classified at the International Equine Leucocyte Antigen Workshop. MHC class I is expressed by all nucleated cells. The major histocompatibility complex (MHC) is a cluster of genes that are important in the immune response to infections. In horses, this complex is referred to as the equine leukocyte antigen (ELA) region.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
