

## Rat beta-inducible early response gene-1 (TIEG1) ELISA Kit | TIEG1 elisa kit

Rat beta-inducible early response gene-1 (TIEG1) ELISA Kit

|                              |                          |
|------------------------------|--------------------------|
| CATALOG #<br><b>AAA53233</b> | REACTIVITY<br><b>Rat</b> |
|------------------------------|--------------------------|

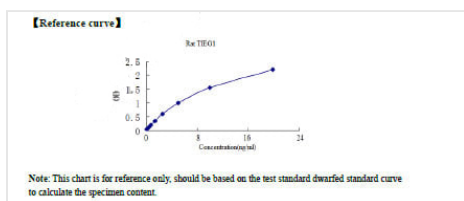

### PRODUCT SYNONYMS

beta-inducible early response gene-1 (TIEG1); Rat beta-inducible early response gene-1 (TIEG1) ELISA Kit; TIEG1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                     |
|-------------------------|---------------------------------------------------------------------------------------------------------------------|
| Reactivity              | Rat                                                                                                                 |
| Specificity             | No cross-reaction with other factors.                                                                               |
| Sequence Length         | 483                                                                                                                 |
| Samples                 | Rat serum, plasma or cell culture supernatant and organizations in the natural and recombinant TIEG1 concentration. |
| Assay Type              | Sandwich (Quantitative)                                                                                             |
| Detection Range         | 20 ng/ml-0.312 ng/ml                                                                                                |
| Sensitivity             | Up to 0.06 ng/ml.                                                                                                   |
| Intra-assay Precision   | <= 8%                                                                                                               |
| Inter-assay Precision   | <= 12%                                                                                                              |
| Preparation and Storage | Store all reagents at 2-8 degree C.                                                                                 |

### NCBI AND UNIPROT INFORMATION

|                         |                                                    |
|-------------------------|----------------------------------------------------|
| NCBI GI #               | 268326953                                          |
| Molecular Weight        | 53,028 Da                                          |
| NCBI Official Full Name | TGF-beta inducible early growth response protein 1 |
| UniProt Protein Name    | TGF-beta inducible early growth response protein 1 |
| UniProt Gene Name       | <b>TIEG1</b>                                       |
| UniProt Entry Name      | D0VZF7_BOVIN                                       |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
