

## Guinea Pig matrilysin (MAT) ELISA Kit | MAT elisa kit

Guinea pig matrilysin (MAT) ELISA Kit

CATALOG #  
**AAA53335**

REACTIVITY  
**Guinea Pig**

### PRODUCT SYNONYMS

matrilysin (MAT); Guinea pig matrilysin (MAT) ELISA Kit; MAT elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                      |
|-------------------------|------------------------------------------------------|
| Reactivity              | Guinea Pig                                           |
| Specificity             | No cross-reaction with other factors.                |
| Sequence Length         | 267                                                  |
| Samples                 | Guinea pig serum, plasma or cell culture supernatant |
| Assay Type              | Quantitative Sandwich                                |
| Detection Range         | 10 ng/ml-0.156 ng/ml                                 |
| Sensitivity             | Up to 0.05 ng/ml                                     |
| Intra-assay Precision   | <= 8%                                                |
| Inter-assay Precision   | <= 12%                                               |
| Preparation and Storage | Store all reagents at 2-8 degree C.                  |

### ADDITIONAL INFORMATION

#### Related Product Information for MAT elisa kit

Principle of the Assay: This experiment use double-sandwich elisa technique and the ELISA Kit provided is typical. The pre-coated antibody is Guinea pig MAT monoclonal antibody and the detecting antibody is polyclonal antibody with biotin labeled. Samples and biotin labeling antibody are added into ELISA plate wells and washed out with PBS or TBS. Then Avidin-peroxidase conjugates are added to ELISA wells in order; Use TMB substrate for coloring after reactant thoroughly washed out by PBS or TBS. TMB turns into blue in peroxidase catalytic and finally turns into yellow under the action of acid. The color depth and the testing factors in samples are positively correlated.
