

## Human Nuclear receptor coactivator 1 ELISA Kit | NCOA1 elisa kit

Human Nuclear receptor coactivator 1 ELISA Kit

CATALOG #  
**AAA56900**

REACTIVITY  
**Human**

### PRODUCT SYNONYMS

Nuclear receptor coactivator 1; Human Nuclear receptor coactivator 1 ELISA Kit; NCoA-1; Class E basic helix-loop-helix protein 74; bHLHe74; Protein Hin-2; RIP160; Renal carcinoma antigen NY-REN-52; Steroid receptor coactivator 1; SRC-1; NCOA1 elisa kit

### PRODUCT SPECIFICATIONS

|                         |                                                                     |
|-------------------------|---------------------------------------------------------------------|
| Reactivity              | Human                                                               |
| Sequence Length         | 1441                                                                |
| Assay Type              | Sandwich                                                            |
| Detection Range         | 0.156-10 ng/mL                                                      |
| Sensitivity             | 0.056ng/mL                                                          |
| Intra-Assay CV          | <=4.9%                                                              |
| Inter-Assay CV          | <=9.7%                                                              |
| Recovery                | 99%                                                                 |
| Preparation and Storage | For long term storage, please store the entire kit at -20 degree C. |

### NCBI AND UNIPROT INFORMATION

|                           |                                                                                |
|---------------------------|--------------------------------------------------------------------------------|
| NCBI GI #                 | 22538455                                                                       |
| NCBI GeneID               | 8648                                                                           |
| NCBI Accession #          | NP_003734.3                                                                    |
| NCBI GenBank Nucleotide # | NM_003743.4                                                                    |
| UniProt Accession #       | Q15788; O00150; O43792; O43793; Q13071; Q13420; Q2T9G5; Q53SX3; Q6GVI5; Q7KYV3 |
| Molecular Weight          | 156,628 Da                                                                     |

|                                  |                                                 |
|----------------------------------|-------------------------------------------------|
| NCBI Official Full Name          | nuclear receptor coactivator 1 isoform 1        |
| NCBI Official Synonym Full Names | nuclear receptor coactivator 1                  |
| NCBI Official Symbol             | NCOA1                                           |
| NCBI Official Synonym Symbols    | SRC1; KAT13A; RIP160; F-SRC-1; bHLHe42; bHLHe74 |
| NCBI Protein Information         | nuclear receptor coactivator 1                  |
| UniProt Protein Name             | Nuclear receptor coactivator 1                  |
| UniProt Gene Name                | <b>NCOA1</b>                                    |
| UniProt Synonym Gene Names       | BHLHE74; SRC1; NCoA-1; bHLHe74; SRC-1           |
| UniProt Entry Name               | NCOA1_HUMAN                                     |

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
