

anti-Human Ferritin Monoclonal Antibody

MAb to Ferritin

CATALOG # AAA57987	HOST Host: Mouse; Source: Ascites	REACTIVITY Human	APPLICATIONS ELISA
------------------------------	---	----------------------------	------------------------------

PRODUCT SYNONYMS

Ferritin; Monoclonal Antibody; MAb to Ferritin; Monoclonal Antibody to Human Ferritin; anti-Ferritin antibody

PRODUCT SPECIFICATIONS

Host	Host: Mouse; Source: Ascites
Reactivity	Human
Clonality	Monoclonal
Isotype	IgG1, kappa
Specificity	Ferritin (Human Ferritin)
Purity/Purification	>90% pure (SDS-PAGE). Caprylic Acid/ABX Product is 0.2um filtered.
Form/Format	Purified, Liquid
Concentration	4.71mg/ml (OD280nm, E ¹ % = 14) (varies by lot)
Applicable Applications for anti-Ferritin antibody	ELISA
Preservative	0.1% Sodium Azide
Immunogen	Ferritin from human spleen
Affinity Constant	Not Determined
Buffer	10mM Phosphate, pH 7.4 containing 150mM Sodium chloride
Warning	This product contains sodium azide, which has been classified as Xn (Harmful), in European Directive 67/548/EEC in the concentration range 0.1%-1.0%. When disposing of this reagent through lead or copper plumbing, flush with copious volumes of water to prevent azide build-up in drains.
Important Notes	Centrifuge before opening to ensure complete recovery of vial contents.
Preparation and Storage	Short term (up to 7 days) store at 2-8 degree C. Long term, aliquot and store at -20 degree C. Avoid multiple freeze/thaw cycles.

ADDITIONAL INFORMATION

Product Categories/Family for anti-Ferritin antibody	Monoclonal Antibodies to Proteins and Bioactive Peptides
