

Mouse anti-Human BCL6 Monoclonal Antibody | anti-BCL6 antibody

BCL6

CATALOG # AAA58790	HOST Mouse	REACTIVITY Human
------------------------------	----------------------	----------------------------

PRODUCT SYNONYMS

BCL6; Monoclonal Antibody; anti-BCL6 antibody

PRODUCT SPECIFICATIONS

Host	Mouse
Reactivity	Human
Clonality	Monoclonal
Positive Control	Tonsil

IMAGES

Product Format	Dilution
Predilute	Ready to Use
Concentrate	1:50-1:200

Dilution Info

IHC (Immunohistochemistry)
BCL6 [AAA58790] on Tonsil

ADDITIONAL INFORMATION

Related Product Information for anti-BCL6 antibody

B-Cell Lymphoma 6 (BCL6) is a zinc finger transcription factor. BCL6 expression is seen in follicular lymphomas, Burkitt's lymphoma, angioimmunoblastic T-cell lymphoma, and nodular lymphocyte-predominant Hodgkin's lymphoma. Together with BCL2, BCL6 is often used to distinguish neoplastic follicles from those in benign hyperplasia, and to aid in the classification of mantle cell lymphomas and nodular lymphocyte-predominant Hodgkin's lymphoma.

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
