

DAB Horseradish Peroxidase Chromogenic Kit (Brown) Kit

DAB Horseradish Peroxidase Chromogenic Kit

CATALOG #
AAA59096

PRODUCT SYNONYMS

DAB Horseradish Peroxidase Chromogenic Kit (Brown); DAB Horseradish Peroxidase Chromogenic Kit; DAB Horseradish Peroxidase Chromogenic Kit (Brown) kit

PRODUCT SPECIFICATIONS

Preparation and Storage

Store Chromogenic Reagent B & C at 4 degree C for frequency use, or store at -20 degree C for long term. Chromogenic Reagent A can be stored at -20 degree C for one year.

ADDITIONAL INFORMATION

Related Product Information for DAB Horseradish Peroxidase Chromogenic Kit (Brown) kit

Background/Introduction: 1. By means of Horseradish Peroxidase (HRP), this DAB Chromogenic Kit can be used for color development in Immunohistochemistry, In situ hybridization, Western, Southern, Northern, EMSA. 2. DAB (3, 3 N-Diaminobenzidine Tetrahydrochloride), is the common substrate of HRP. Catalyzed by HRP, DAB can produce the brown precipitate insoluble in water and ethanol. Thus, after DAB color development, end user can use ethanol soluble dye to do the successor staining. 3. This kit can be used for color development of HRP combined cells or tissues in Immunohistochemistry or In situ hybridization, HRP conjugated membrane in Western blot, and endogenic HRP of cells and tissues. 4. In Immunohistochemistry or In situ hybridization, this kit can detect about 500 sections (0.2 ml per section).
