

Rabbit Lambda Polyclonal Antibody

Lambda/FITC, Rpab

CATALOG # AAA59330	HOST Rabbit	APPLICATIONS Immunohistochemistry
------------------------------	-----------------------	---

PRODUCT SYNONYMS

Lambda; Polyclonal Antibody; Lambda/FITC; Rpab; anti-Lambda antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Clonality	Polyclonal
Isotype	IgG
Form/Format	Concentrate or Prediluted
Sequence Length	109
Applicable Applications for anti-Lambda antibody	IHC (Immunohistochemistry)
Immunogen	Purified human Lambda Light Chains from human serum.
Localization	Cytoplasmic
Control	Tonsil, Lymph Node
Preparation and Storage	Store at 2-8 degree C in the dark.

IMAGES

IF (Immunofluorescence)
IF of Lambda on a FFPE Tonsil Tissue

Antibody Type	Dilution	Volume/QTY
Prediluted	Ready-To-Use	3.0 ml
Prediluted	Ready-To-Use	7.0 ml
Prediluted	Ready-To-Use	15.0 ml
Concentrated	1:25-1:100	0.5 ml
Concentrated	1:25-1:100	1.0 ml
Control Slides		5

Dilution Info

ADDITIONAL INFORMATION

Related Product Information for anti-Lambda antibody	Lambda detects surface immunoglobulin on normal and neoplastic B-cells. Lambda staining is seen in B-cell follicles of human lymphoid tissue. When studying B-cell neoplasms, the determination of light chain ratios remains the centerpiece. This is sound reasoning because most B-cell Lymphomas express either kappa or lambda light chains, whereas reactive proliferations display a mixture of kappa and lambda-positive cells. If only a single light-chain type is detected, a lymphoproliferative disorder is very likely. Monoclonality is determined by a kappa-lambda ratio greater than or equal to 3:1, a lambda-kappa ratio greater than or equal to 2:1, or a monoclonal population of 75% or more of the total population. In IgG-dominant immune complex-mediated glomerulonephritis, there are multiple pathological findings that strongly suggest the identification of Lupus Nephritis including immunofluorescence staining for IgG, IgM, IgA, Kappa or Lambda, C3 and C1.
Product Categories/Family for anti-Lambda antibody	Direct Immunofluorescence Antibodies

NCBI AND UNIPROT INFORMATION

NCBI GI #	2627246
NCBI Official Full Name	lambda, partial

For Research Use Only. Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
