

Rabbit Annexin A10 Polyclonal Antibody

Annexin A10 (Polyclonal), Rpab

CATALOG # AAA59486	HOST Rabbit	REACTIVITY HumanPredicted: Mouse
------------------------------	-----------------------	--

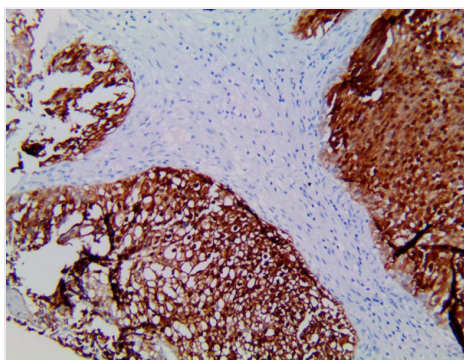

PRODUCT SYNONYMS

Annexin A10; Polyclonal Antibody; Annexin A10 (Polyclonal); Rpab; (RPab); anti-Annexin A10 antibody

PRODUCT SPECIFICATIONS

Host	Rabbit
Reactivity	Human Predicted: Mouse
Clonality	Polyclonal
Isotype	IgG
Form/Format	This antibody is derived from cell culture supernatant that is concentrated, dialyzed, filter sterilized, and diluted in buffer pH 7.5, containing BSA and sodium azide.
Localization	Nuclear
Intended Use	Annexin A10 (Polyclonal), rabbit polyclonal antibody, is a primary antibody intended for laboratory use by trained laboratory personnel in an immunohistochemical (IHC) assay to qualitatively identify the Annexin A10 protein by light microscopy in normal and/or pathological formalin-fixed, paraffin-embedded (FFPE) human tissue. The clinical interpretation of any staining or its absence should be performed by a qualified pathologist and complemented by morphological studies using proper controls and evaluated within the context of the patient's clinical history and other tests.

Antibody Type	Dilution	Volume/QTY
Prediluted	Ready-To-Use	3.0 ml
Prediluted	Ready-To-Use	7.0 ml
Prediluted	Ready-To-Use	15.0 ml
Concentrated	1:25-1:100	0.1 ml
Concentrated	1:25-1:100	0.5 ml
Concentrated	1:25-1:100	1.0 ml
Control Slides		5

Dilution Info

ADDITIONAL INFORMATION

Related Product Information for anti-Annexin A10 antibody	Annexin A10 is a member of the annexin family, a large multigene family of calcium- and phospholipid-binding proteins. Annexin A10 is expressed in the foveolar cells and glandular cells of the normal antral or body-type gastric mucosa. Expression of Annexin A10 was associated with a good prognosis of diffuse-type gastric carcinoma (DTGC). Annexin A10 can be expressed by cholangiocarcinoma as well as colorectal cancers.
