

## Plant Sterol Biochemical

Plant Sterol Mixture

CATALOG #  
**AAA60469**

### PRODUCT SYNONYMS

Plant Sterol; Plant Sterol Mixture; Plant Sterol biochemical

### PRODUCT SPECIFICATIONS

|                         |                                                                                                                                                                                    |
|-------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Purity/Purification     | >98%                                                                                                                                                                               |
| Form/Format             | 1ml Chloroform                                                                                                                                                                     |
| CAS Number              | Brassicasterol, CAS# 474-67-9; Content: 14%<br>Campesterol, CAS# 474-62-4; Content: 28%<br>Stigmasterol, CAS# 83-48-7; Content: 12%<br>Beta-Sitosterol, CAS# 83-46-5; Content: 43% |
| Analysis                | GC                                                                                                                                                                                 |
| Preparation and Storage | Store in freezer.                                                                                                                                                                  |

### ADDITIONAL INFORMATION

|                                                        |                                |
|--------------------------------------------------------|--------------------------------|
| Product Categories/Family for Plant Sterol biochemical | 360 Sterols; 363 Plant Sterols |
|--------------------------------------------------------|--------------------------------|

**For Research Use Only.** Not for use in diagnostic or therapeutic procedures. Small volumes of product may become entrapped in the seal of the vial during shipment and storage; if necessary, briefly centrifuge the vial on a tabletop centrifuge to dislodge any liquid in the cap.
