

## Goat SNX26/TCGAP Polyclonal Antibody | anti-SNX26 antibody

Goat anti-SNX26/TCGAP (C Terminus) Antibody

| CATALOG # | HOST | REACTIVITY                                                     | APPLICATIONS                |
|-----------|------|----------------------------------------------------------------|-----------------------------|
| AAA61195  | Goat | Tested: Human; Expected from sequence similarity: Human, Mouse | Immunohistochemistry, ELISA |

### PRODUCT SYNONYMS

SNX26/TCGAP; Polyclonal Antibody; Goat anti-SNX26/TCGAP (C Terminus) Antibody; Goat Anti-SNX26 / TCGAP (N Terminus) Antibody; SNX26; TCGAP; FLJ39019; sorting nexin 26; likely ortholog of mouse TC10/CDC42 GTPase-activating protein; NOMA-GAP; neurite outgrowth multiadaptor RhoGAP protein; SNX26 antibody; TCGAP antibody; FLJ39019 antibody; sorting nexin 26 antibody; likely ortholog of mouse TC10/CDC42 GTPase-activating protein antibody; NOMA-GAP antibody; neurite outgrowth multiadaptor RhoGAP protein antibody; SNX26 / TCGAP (C Terminus); anti-SNX26 antibody

### PRODUCT SPECIFICATIONS

|                                                 |                                                                                                                                       |
|-------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                            | Goat                                                                                                                                  |
| Reactivity                                      | Tested: Human; Expected from sequence similarity: Human, Mouse                                                                        |
| Clonality                                       | Polyclonal                                                                                                                            |
| Purity/Purification                             | Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. |
| Form/Format                                     | Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.                                       |
| Concentration                                   | 100ug specific antibody in 200ul (varies by lot)                                                                                      |
| Sequence                                        | SWSLHSEGQT RSYC                                                                                                                       |
| Sequence Length                                 | 1126                                                                                                                                  |
| Applicable Applications for anti-SNX26 antibody | IHC (Immunohistochemistry), ELISA (Peptide ELISA)                                                                                     |
| Immunogen                                       | Peptide with sequence SWSLHSEGQTRSYC, from the C Terminus of the protein sequence according to NP_443180.2.                           |
| Epitope                                         | C Terminus                                                                                                                            |
| Preparation and Storage                         | Aliquot and store at -20 degree C. Minimize freezing and thawing.                                                                     |

### IMAGES

#### IHC (Immunohistochemistry)

2.5ug/ml staining of paraffin embedded Human Brain. Steamed antigen retrieval with citrate buffer pH 6, AP-staining.

### NCBI AND UNIPROT INFORMATION
