

## Goat RASSF6 Polyclonal Antibody | anti-RASSF6 antibody

Goat anti-RASSF6 Antibody

| CATALOG # | HOST | REACTIVITY                                              | APPLICATIONS        |
|-----------|------|---------------------------------------------------------|---------------------|
| AAA61328  | Goat | Tested: Human; Expected from sequence similarity: Human | Western Blot, ELISA |

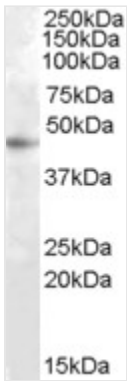

### PRODUCT SYNONYMS

RASSF6; Polyclonal Antibody; Goat anti-RASSF6 Antibody; Ras association (RalGDS/AF-6) domain family 6; DKFZp686K23225; putative RAS binding protein; RASSF6 antibody; Ras association (RalGDS/AF-6) domain family 6 antibody; DKFZp686K23225 antibody; putative RAS binding protein antibody; anti-RASSF6 antibody

### PRODUCT SPECIFICATIONS

|                                                  |                                                                                                                                       |
|--------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Host                                             | Goat                                                                                                                                  |
| Reactivity                                       | Tested: Human; Expected from sequence similarity: Human                                                                               |
| Clonality                                        | Polyclonal                                                                                                                            |
| Purity/Purification                              | Purified from goat serum by ammonium sulphate precipitation followed by antigen affinity chromatography using the immunizing peptide. |
| Form/Format                                      | Supplied at 0.5 mg/ml in Tris saline, 0.02% sodium azide, pH7.3 with 0.5% bovine serum albumin.                                       |
| Concentration                                    | 100ug specific antibody in 200ul (varies by lot)                                                                                      |
| Sequence                                         | SNTLKPHAKD EPDS                                                                                                                       |
| Sequence Length                                  | 337                                                                                                                                   |
| Applicable Applications for anti-RASSF6 antibody | WB (Western Blot), ELISA (Peptide ELISA)                                                                                              |
| Immunogen                                        | Peptide with sequence C-SNTLKPHAKDEPDS, from the internal region of the protein sequence according to NP_803876.1; NP_958834.1.       |
| Epitope                                          | Internal region                                                                                                                       |
| Note                                             | This antibody is expected to recognise both reported isoforms (NP_803876.1; NP_958834.1).                                             |
| Preparation and Storage                          | Aliquot and store at -20 degree C. Minimize freezing and thawing.                                                                     |

IMAGES

**WB (Western Blot)**  
1ug/ml) staining of HepG2 cell lysate (35ug protein in RIPA buffer). Primary incubation was 1 hour. Detected by chemiluminescence.
